Xeomin and Botox

These have done wonders for relaxing the stress from your face over the holidays. Keep it up. We will continue to offer Xeomin for \$200.00 per area of 24 units, while the introductory supply lasts. Our patients say that it works as well as Botox. We still offer Botox for those that prefer it.

Happy New Year 2012

All of us here wish you health, happiness and prosperity in the coming year. Last year was better than the previous three years and 2012 looks like it will be even better.

Surgery-Free Facelifts

Radiesse and Sculptra have proven to be wonderful agents for lifting and rejuvenation the face. They fill in the areas of the face that have lost subcutaneous fat pads. Facelifts cannot correct this. They only re-drape the tissues of the lower face, jaw and neck.

Remember to Check Your Birthday Suit on Your Birthday

Don't forget to help Dr. Alkek watch those moles and pre-cancerous lesions on those of you with a past history or family history of skin cancer. If you notice any changes in moles or new spots that bleed, change in size or color, be sure to come in to be checked immediately.

Acne Treatment Covered by Insurance Again

Recently, most insurance companies have gone back to covering acne treatment. Dr. Alkek's acne treatment is aggressive and really works. We have started seeing new acne patients until 4:00 on Wednesday. We also have lunchtime appointments available. To save time during your appointment, read Dr. Alkek's acne brochure.

Clear Your Leg Veins Before Spring

Remember it takes about three treatments to clear those unsightly veins. Start in January and you will have legs ready to wear shorts in April. Larger facial veins can also be treated very easily.
